

ALTERNATIVE TO ICING

Don't forget to SHARE this so it will be SAVED to your timeline!

Great icing!

Ingredients

1 pkg mix instant vanilla pudding (or whatever flavor you would like) with half of the milk called for on the package.

1 (8oz) pkg of cool whip

fruit (optional)

How to Make ALTERNATIVE to ICING

All you do is mix one instant vanilla pudding packet (or whatever flavor you would like) with half of the milk called for on the package. Whisk until it begins to thicken.

Then fold in 1 8 oz container of Cool Whip. A great frosting ...spread on cakes and piped onto cupcakes, a tasty filling in crepes or on waffles along with some fruit...way less sugar too!
