

# Easy Banana Split Brownie Cake

## Ingredients:

1 box brownie mix (13×9 family size), plus oil & eggs per box recipe  
1 box instant vanilla pudding (6 serving size), plus ingredients per box recipe  
1 qt fresh strawberries  
1 pkg walnuts  
4-5 large bananas  
1 large container of Cool Whip

## How to make it:

Bake brownie mix as directed and let cool. I usually under cook my brownies just a little for a more chewy brownie.  
Make instant pudding and chill until brownies are cooled.  
Once brownies are cooled, slice your bananas right on top of the brownies until they have a nice layer all over.  
Pour your pudding on top of the bananas.  
Now, spread your Cool Whip on top of that.  
Slice up your strawberries and spread over the top. I chunk cut mine so you get a strawberry in every bite, lol.  
Now sprinkle your walnuts all over and you're done. Keep refrigerated until time to eat. Sometimes I drizzle some chocolate syrup over the top too. If I'm really craving chocolaty goodness
