

Homemade Wendy's Frostys

Wendys frosty fans unite... I've come up with the most perfect copycat EVER! It tastes just like the real deal, and is so simple to make... I bet you can't guess the secret ingredient!

Growing up, I was a HUGE Wendys frosty fan. Okay, who am I kidding... I still am! Now they have the vanilla flavor, but my heart still belongs to the original chocolate flavor.

HELPFUL TIPS TO MAKE THIS COPYCAT WENDYS FROSTY

- Make sure you soften the vanilla ice cream. Just leaving it out on the counter for 5-10 minutes should do the trick.
- If you don't have nesquik powder, another chocolate milk powder (like Ovaltine) works well too.
- The recipe makes a frosty with a classically semi-melted consistency. If you prefer a "harder" or thicker frosty, use slightly less milk.

To Make this Recipe You'll Need the following ingredients:

PLEASE, USE THE RED NEXT PAGE LINK BELOW FOR THE RECIPE AND INGREDIENTS.

To Make this Recipe You'll Need the following ingredients:

Ingredients:

1 can sweetened condensed milk

1 8 oz. tub Cool Whip

1/2 gallon chocolate milk

Directions:

Mix all the ingredients FIRST, then pour it into the ice cream maker. Mix for 20 to 30 minutes until it reaches frozen perfection, pour in a big glass, insert straw and drink!
